Development

Neuromatch Computational Neuroscience, a code-first computational neuroscience course where my group presented our work on "Adaptive Decision-Making in Mice: Behavioral Strategies under Symmetric and Asymmetric Visual Stimuli Probabilities".

MIT CBMM Summer School: Brains, Minds, Machines Summer School, an intensive summer school focused on the problem of intelligence from neuroscience, cognitive science, and artificial intelligence perspectives. I presented my work on "Adaptive Reinforcement Learning Models for Mouse Decision-Making in Visual Discrimination Tasks" at the culmination of the school.
